SUMMARY

Computer Science postgraduate with hands-on experience designing and building scalable software applications using Java, and the MERN stack. Strong foundation in object-oriented design, data structures, algorithms, and software engineering principles, with a focus on clean architecture, performance, and maintainable code. Passionate about solving challenging engineering problems, learning continuously, and delivering software that creates meaningful impact.

EDUCATION

PSNA College of Engineering and Technology, Dindigul Master of Computer Applications (MCA)	Oct 2025 – May 2027 (Pursuing) CGPA: 8.7 / 10.00
M. V. Muthiah Government Arts College for Women, Dindigul B.Sc., Computer Science	July 2022 – May 2025 CGPA: 8.224 / 10.00

PROJECTS

Smart Hostel Management System

[Github](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack web application to digitize hostel issue reporting, announcements, and lost & found management for students and administrators.
- Implemented **JWT-based authentication** with role-based access control for three user roles: students, wardens, and admins.
- Built a management dashboard with **visual analytics** to monitor issue categories and resolution status in real time.

PhonePe Clone Backend

[Github](#)

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, BCrypt

- Built a PhonePe-style **digital wallet backend** with user authentication, wallet balance management, money transfer, bill payment, and transaction history APIs.
- Implemented secure **JWT-based authentication** with BCrypt password hashing and MPIN verification for protected wallet operations.
- Designed MongoDB schemas for users and transactions, added dummy seed data, and documented APIs using **Swagger UI**.

PUBLICATIONS

ICCT 2024 – International Conference on Intelligent Computing and Communication Technology

- Published a survey paper titled "**Blockchain for Secured Online Transactions – A Comprehensive Analysis**" at ICCT 2024.

INCOCOM 2K26 – 6th International Conference on Contemporary Management and Computing

- AdaptiNet**: Authored a research paper on quantum-inspired social media analytics using hypergraph clustering and federated learning to optimize complex relationship modeling and data privacy.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, HTML5, CSS3

CS Fundamentals: Object-Oriented Design, Data Structures, Operating System Concepts

Frontend: React 18, Bootstrap, Vite, Axios

Backend: Node.js, Express.js, RESTful API Design, JWT Auth, BCrypt

Databases: MongoDB, MySQL, Relational Schema Design, Mongoose ODM

Tools: Git, Postman, VS Code, IntelliJ IDEA

COURSEWORK

Introduction to AI: HP LIFE online course

Fundamentals of GenAI: GUVI – Certified

PROBLEM SOLVING ACHIEVEMENTS

- GeeksForGeeks** – Completed the 160-Days Problem Solving Challenge (Certified).
- LeetCode** – Earned the 365 Days Badge for consistent daily problem solving.
- Naukri Young Turks Quiz** – Received Merit Certificate for performance in the national-level quiz.
- Prompt Engineering** – Secured 2nd Prize in Tamil Nadu Government's Ilakiya Thiruvizha Competition.
- Debugging Competition** – Secured 2nd Prize in an inter-college debugging event.
